

Nr. 5 Medium circular tour in Serbia 8 days / 7 nights

© Sasaplahet Adventure traveller

This unique tour with our legendary 4x4 yellow ‘Panda’ will take You to a circular voyage Through Serbia. The tour is departing from the North, from Novi Sad, then goes to the Fruška Gora mountain, throughout the Srem plain, across the

river Sava all the way to Cer mountain and Sokolske mountain, the sights of important Serbian history heritage. The journey will take you further to the east to Oplenac, the last resting place of Karadjordjevic family, famous Serbian royal dynasty. We will then continue to go East, to Homolj Mountains rich in tick forests and breathtaking river springs descending down the mountain slopes. You will feel the spirit of the untainted Serbia on whose mountains, by the ancient legends, used to be the habitat of fairy's witch "used to heal the people with so called the living water and herbs"

You will have the opportunity to see the many springs and small remote villages as you pass the hidden forest paths and mountain dirt roads. This region is famous by well-preserved sights of medieval heritage, folklore costumes, old craftsmanship and traditional architecture.

Your experience will be completed by enjoying the traditional cuisine prepared in authentic village households. The road will lead you further towards Danube and Banat with unique Deliblatska sand-plane, Serbian desert -in the heart of Europe. Driving through the sand plane is a unique experience and a challenge as per the fact that it is leading through the sand-paths.

Tour will end with the return to Novi Sad.

Tour includes driving in the line guided by our guides on the head of the line, and participants of the tour will all be connected by radio stations during entire journey. There is a possibility to take turns between the participants on the front of the line with our guide as agreed between participants.
